

New Water Treatment Recycle Unit for Sunrise Premium Resort & Spa

Dear Valued Partner,

As per the new Hoi An Environmental Regulations Sunrise Premium Resort is currently developing plans to enlarge our existing Recycle Water Plant. This is in line with the Green Footprint a 5 star resort is required to achieve and Sunrise Premium Resort will be leader .

During the time from 28th April until 31st May, 2018, we would like to inform you that our Resort will be building beside our hotel property (facing away towards the south) an enhanced Water Treatment System. Please rest assured that our teams will be closely monitoring the works and noise levels.

In case of any issues, kindly directly contact my office pa.gm@sunrisehoian.vn and our Front Office Management under: fom@sunrisehoian.vn .

As with previous building works Sunrise Premium Resort is committed to deliver the usual Holiday experience to our guests and we would like to apologize for any inconvenience this may cause.

We highly appreciate your understanding and wishing you a pleasant stay with us.

Sincerely yours,

Sven Albert Saebel

General Manager
